

Secure powered locker for safe, segregated battery charging

POWERSTATION™

- Perforated doors for ventilation & visibility
- Double socket in each compartment
- 230V RCD protected plug
- 6 Separate compartments with individual locks
- Robust Steel construction
- Finished with an anti-bacterial epoxy powder coat

Battery charging locker bank, designed to charge power tool batteries, and mobile phones whilst keeping them safe & secure – ideal for the site office. Six separate compartments, each containing double sockets connected in series to a 230V RCD protected plug. Doors fitted with cam locks and perforated for ventilation. Lockers finished in an anti-bacterial epoxy powder coat. Each lock is serial numbered for replacement keys.
