

Medium duty secure 'walk-in' hazardous storage units for fixed installation

FLAMSTOR™ COLLAPSIBLE

Lifting eyes for crane loading

Red paint and galvanised finish for ultimate durability

Optional internal shelves available

Heavy duty lockable doors

Raised and removable open-steel floor

Fully welded and tested sump to prevent leakage

High and low level ventilation

Built to specification for ½ hour fire rating

Available in 3 standard sizes, but can be linked together

Man portable – erected simply and easily with no fuss! Instructions included.

Can be delivered already erected

Suitable for chemicals or flammables

FS4.0M

FS2.0M

FS3.0M

Walk-in storage container ideal for safely securing larger quantities of chemical or flammable substances. Whereas the standard FlamStor is a fully welded design, the FlamStor™ Collapsible is bolted together, making it ideal for areas of restricted access. It is manufactured to a very high standard, including heavy duty open steel floor, secure rigid doors and optional shelving available as an extra.

Product Code	Description	Weight	External Dimensions W x D x H (mm)	Internal Dimensions W x D x H (mm)
